

On Friday, Dec. 3 almost 100 Catholic Sisters gathered in DC to call on President Biden to end Title 42. This is an inhumane practice of denying migrants even the possibility of applying for asylum at our southern border. Sisters Amy Kistner, Dianne Kaimann, and Noella Poinsette were among those present.

You can watch the livestream of the event at <https://networklobby.org/title42livestream/>. At 39:39 the speakers begin with sharing stories of those working at the border and also Santiago giving his own personal story. These were powerful presentations; these give evidence of why we must end the use of this despicable policy. President Biden has the power to end this; Congress has no role in ending this and in honoring international law on the right to asylum.

Join us in calling for an end to Title 42.

What would have happened if the Holy Family of Jesus, Mary and Joseph had been met by Egyptian authorities with such hardness of heart as they fled Herod's death squad?
